

TT-50™ VERTICAL CARTONER

Compact Portable Vertical Cartoner For Hand Load Or Automatic Applications.

The 50 series of top load cartoners feature compactness, portability, simple operation and quick changeover. The TT-50 Vertical Cartoning Machine is available with automatic bottle loading and count weigh scale interface. Carton pockets assure positive carton setup and carton squareness. Besides being compact, portable, easy to use and changeover, TT-50 reaches speeds up to 140 CPM.

TOP-LOAD CARTONER
