TT-60TG Automatic Glued-Tray Packer

Shelf-Ready Packaging, Automated

Our Top-Load Tray Packers feature stainless steel frames, powered tray magazine, tray former, tray loader, and PLC controls with self-diagnostics. A wide assortment of options includes tuck or glue tray closing, multiple tray magazines, multiple lane merge conveyors, race track collating devices and robotic tray loaders with custom EOAT. The TT-60 Top Load Tray Packing Machine can collate products, and load them into a tray at speeds up to 35 TPM.

KEY FEATURES

- ▶ Compact Footprint
- ▶ Positive Product Handling
- ▶ Optimum Accessibility
- ▶ Wide Product Size Range
- ▶ Easy Setup & Changeover

OPTIONS

- ▶ Tuck or glue tray closing
- ▶ Gantry or robotic top loader
- ▶ Various collation/orientation systems
- ▶ Open flap detection and rejection system
- ▶ Correct product count sensor system

COMMON APPLICATIONS

- ▶ Cartons
- ▶ Blisters
- ▶ Pouches
- ▶ Cups
- ▶ Bottles

TECHNICAL SPECIFICATION

TYPE	Glue-Closed Carton Tray Packer
MODEL	Intermittent Motion – Manual or fully automated systems
MACHINE CENTERS	Variable, up to 15 inches
SPEED	Variable, up to 35 trays/minute. Depending upon application
TRAY FEED	Powered magazine with reciprocating feeder
TRAY CLOSING	Hot Melt Glue or Tuck Tray
TRAY LOADING	Manual, robotic or with collation system
FRAME	Welded tubular stainless steel. Hinged cover panels with safety interlocks.
DRIVE	Servo drive, with line shaft
CONTROLS	Allen Bradley PLC's and electrical components
ADJUSTMENTS	Lead screws with calibrated scale references
DIMENSIONS	Request specific model floor plan

RACETRACK COLLATION SYSTEM

RaceTrack Collation System is generally suitable for flexible products or for handling of products that are difficult to accumulate. They provide high speed and optimum product protection.

GLUE OR TUCK TRAY CLOSING

Trays are picked from the Tray Magazine and then transferred to the Tray Plunger which forms the tray. Tray closing is achieved using solely a series of stationary and mechanical plows for tuck closed trays, or combining it with a hot melt glue system for glue closed trays.

TT-60TT/TG TUCK/GLUE TRAY PACKER

CAN BE INTEGRATED WITH

CARTONERS

Tishma Technologies operator friendly cartoners can accommodate the most challenging applications. Our cartoners are built for 24/7 operation and they provide flexibility, quick changeover, high speed (up to 1,000 cpm) and superior product handling.

CASE PACKERS

As a natural extension to our product line, and to offer our customers complete end-of-line packaging turnkey solutions, we developed a line of Case Packers and Case Loading, Erecting and Sealing Modules. Our case packers provide flexible collation systems and high-speed product handling for different case formats.

BUNDLERS

The Raptor and Raptor-R series bundler machines are total solutions for all your shrink wrapping, banding and strapping packaging needs. These automatic packaging machines are offering amazing benefits such as easy integration into existing packaging lines and quick bundling of most standard products.

PALLETIZERS

Tetrystack palletizers feature adjustable infeed heights to match existing conveyors and a platform design that can be transported with a single forklift. Models are equipped with a Pallet loader, full pallet discharge, docking stations for easy locating, integrated forklift inserts, and an adjustable infeed conveyor.

ABOUT TISHMA TECHNOLOGIES

Tishma Technologies designs and manufactures high-quality, high-efficiency packaging machinery and packaging systems. Our products are used worldwide in most major industries, including food, pharma, confections, cosmetics, and beverage. We also offer high-speed, continuous motion, flexible, fully integrated turnkey packaging lines for large worldwide companies. We combine quality craftsmanship, top-notch technology, and innovative, modular designs to accommodate today's flexible packaging machinery requirements.

Being part of the **Intertape Polymer Group**, our customers have increased access to a complete single-source equipment and consumables supply, responsibility, and comprehensive service and support.

SERVICE & MACHINE AFTER-CARE

Being a good machine manufacturer is only part of being a full-service supplier to our customers. We offer complete system support before, during, and most importantly after a machine has been installed.

From annual preventive maintenance audits to customized training packages and machine rebuilds, we offer support throughout the machine lifecycle. We are committed to responding quickly and efficiently to ensure maximum uptime for our customers through online and onsite presence.

Our trained service technicians and spare parts inventory that includes maintenance and refurbishment kits keep thousands of our machines worldwide operating efficiently.
