

# A SECURE BOND

## AC74 DOUBLE-COATED CLOTH CARPET TAPE

IPG®'s AC74 Carpet Tape features the same high-tack, low-residue adhesive on both sides. This product will provide superior adhesion to both surfaces yet can still be removed cleanly from concrete or carpet after days and days of traffic. We torture test this product with extreme traffic volumes and pressures to ensure that this product will perform above and beyond the call of duty. Carpet Tape is supplied with a blue polyethylene release liner that is easy to tear by hand and easy to remove from the backing — even over very long installation runs.
