

tapes that get the JOB DONE

Media blast masking tapes adhere to the surface, absorb all of the energy they are exposed to without becoming brittle and remove cleanly in one piece. IPG® offers the only tapes in the industry that can do all this and also be easily die-cut into specific shapes to dramatically speed up the masking process. Aerospace coatings have gotten stronger over the years, making their removal more difficult. At IPG®, we understand the risks and costs associated with a product that does not provide adequate protection during the chemical stripping process. IPG®'s products are time tested and military approved to protect the world's most expensive equipment. Have a blast comparing IPG®'s tapes to competitive alternatives and see who the clear cut winner is!

ALF300 & ALF300L FOIL TAPE

- Offers instant water-resistant adhesion to clean, dry surfaces
- Flexible - conforms to irregular surfaces
- Meets the requirements of SAEAMS-T-23397B Type I & Type II, BAC D6- 1816, BAC D6-3450, DAN220

BT 100 SHOT PEENING TAPE

- Consists of a tough rubber construction
- Withstands PMB as well as light sandblasting applications
- Military TO Manual 1-1-8

Product uses: mask for chemical paint stripping of aircraft, underlay for PMB blast tape, electroplating, HVAC

PRODUCT ATTRIBUTES

ALF300 SELF WOUND

Product Code	NSN	Size	Rolls/Case
ALF30000560A	7510-01-670-5475	0.5" x 60yd	72
ALF300007560	7510-01-670-5480	0.75" x 60yd	48
ALF3000160A	7510-01-670-5481	1" x 60yd	36
ALF30001560A	7510-01-670-5484	1.5" x 60yd	24
ALF3000260A	7510-01-670-5486	2" x 60yd	24
ALF3000360A	7510-01-670-5489	3" x 60yd	12
ALF3000460A	7510-01-670-5491	4" x 60yd	12
ALF300LOG		51.5" x 60yd	4

ALF300L WITH LINER

Product Code	NSN	Size	Rolls/Case
ALF300L02560		2.5" x 60yd	6
ALF300L1260A		12" x 60yd	1
ALF300L1360A		13" x 60yd	1
ALF300L1860A		18" x 60yd	1
ALF300L3060A		30" x 60yd	1
ALF300L51560		51.5" x 60yd	1
ALF300LJUM		51.5" x 750yd	1

BT100

Product Code	NSN	Size	Rolls/Case
82833	7514-LL-QJ4-5938	1" x 10yd	36
82835	7514-LL-QJ4-5939	2" x 10yd	24
83644	7514-LL-QJ4-5940	3" x 10yd	12
82836	7514-LL-QJ4-5941	4" x 10yd	8
82837	7514-LL-QJ4-5942	6" x 10yd	8
82838	7514-LL-QJ4-5943	12.5" x 10yd	4
82839		25" x 10yd	1
86073		30" x 10yd	1

OTHER IPG MASKING AND MEDIA BLAST SOLUTIONS

FBL100

Film/foil barrier laminate material used for surface protection of sensitive areas of an aircraft and its parts. Resistant to water, paint stripping chemicals, oils and grease. Designed and engineered for use during chemical (paint) stripping of aircraft to provide vapor barrier and UV protection.

PG21

This extremely versatile masking tape is resistant to strong solvents and paints and is easily removed in warm or cold environments. It is temperature resistant to 325°F/163°C.

PG57R

PG57R masking tape supports large kraft aprons and is ideal for aircraft, buses and heavy trucks. It is solvent resistant and can be SME-AMS-T-21595 certified. SAE-AMS-T-21595 (1), BAC 5034-4, BAC D6-1816

AC50

ASTM D5486, CID AA-1586A, ASTM D5486, Ford ESB-M3G58-A 14 mil duct tape designed to perform best when a significant level of tensile and tear strength are required. Excellent moisture barrier.
