AIRSPACE G4

AIRSPACE AIR PILLOW MACHINE

The AirSpace G4 machine delivers flexibility and performance. The lightweight G4 machine, is designed to keep up with the most demanding packing environments. The G4 produces pillows in various sizes and film thickness to provide versatility needed in today's marketplace. The G4's easy to use touch panel control screen and ergonomically designed film loader makes set-up a breeze and ongoing operations effortless.

FEATURES & BENEFITS

- Easy to use operator controls
- Easy to load film
- Automatic hopper control utilizing photo-eye technology
- Runs multiple film, sizes and thickness
- Does not require tools to change the main ware parts

AIRSPACE™ G4

AIRSPACE INTEGRATION

Our unique, custom pillow delivery system integrated within existing work stations takes cost out of the packaging process, improving labor and helping to ensure pillows are always available, delivered to where they can most conveniently be used.

- Strategically placed pillow openings
- Automatic machine start/stop
- Hoppers can be positioned over conveyors and/or pack stations
- No need to change existing packing stations or work areas
- Easy pillow access helps increase productivity
- Utilizes minimal floor space
